

## COUNTER VALVE FOR SPRINKLERS

140426002020

SKIOLD MAKES THE DIFFERENCE!

- Counter valve for installation on each sprinkler
- Is also called no-drip, drip-stop, anti drip or similar
- Opens at 1.5-1.7 bar water pressure
- Ensures that all sprinklers open and close simultaneously
- Prevents longtime "dripping" between sprinkling intervals
- Is standard for sprinkling systems
- Is optional for systems used for soaking only
